Computer Engineer (UBA) and FullStack Developer with 5+ years building web products end-to-end. COO & CTO at Yuppie, where I led both operations and the technical architecture of a Customer Experience platform. Core stack: React, TypeScript, Node.js, Astro and Python. Experience integrating AI APIs (OpenAI, Anthropic Claude).

WORK EXPERIENCE

Yuppie — COO & CTO

April 2025 – May 2026

Customer Experience platform (QR/NFC)

Buenos Aires, Argentina · Remote

- Joined the founding team (2 partners already on board) and stepped up to drive the technical and operational improvements over an existing baseline.
- As CTO: improved the architecture, consolidated the stack (Astro + React + TypeScript + Tailwind), optimized performance, and built integrations for surveys, reviews, analytics and deployment on Vercel/Railway.
- Led the landing redesign to better showcase the service and communicate the value proposition.
- Hands-on UX/UI work on the product: flow redesigns, accessibility tweaks and visual polish.
- As COO: active participation in marketing, design, pricing and the onboarding playbook for locations.

Código — Software Developer

October 2024 – Present

Lifecycle automation platform for dApps

Buenos Aires, Argentina

- Current focus on authentication, MCP (Model Context Protocol) servers and development of the SDK that clients consume to integrate with the platform.
- Automatic generation of smart contracts, client libraries and technical documentation, applying dependency inversion and clean architecture principles.
- Integrated APIs and external services to extend the system's capabilities.
- Active participation in dailies, reviews and plannings.

Botmaker — Software Developer

January 2021 – October 2024

SaaS platform for conversational chatbots

Buenos Aires, Argentina

- Built and supported chatbots for clients across industries (banking, retail, telcos).
- Integrated chatbots with multiple APIs and external services, ensuring smooth and reliable communication.
- Maintained and continuously improved the corporate website, shipping bug fixes and new visual features.
- Active participation in dailies, reviews, plannings and client meetings.

Freelance — Full Stack Developer

January 2021 – Present

Own and client projects

Buenos Aires, Argentina

- Own and client projects: **frontend** (React, Astro, Tailwind), **backend** (Node.js, MongoDB, REST APIs), **AI integrations** (OpenAI, Anthropic Claude) and **automations** to accelerate repetitive workflows.
- End-to-end design and delivery of 10+ websites (landings, dashboards, e-commerce and portals).
- Focus on performance, UX and solving a concrete problem.

Cryptonite — Frontend Developer

March 2022 – February 2023

Web and mobile apps startup

Buenos Aires, Argentina · Remote

- Development, maintenance and iteration of web and mobile apps with React and React Native.
- Close collaboration with design to ship accessible and consistent interfaces.

LEADERSHIP EXPERIENCE

OHA Macabi — Team Coordinator

Non-formal education community

March 2017 – January 2024

Buenos Aires, Argentina

- **Team Coordinator (2 yrs):** led teams of ~30 young people (17–21) in non-formal education and value transmission.
- **Community Leader Trainer (2 yrs):** mentorship for teens (14–17) training as future community leaders.
- **Group Leader (4 yrs):** recreational and educational activities for children (2–14).
- Soft skills developed: leadership, communication, problem solving and teamwork.

EDUCATION

Universidad de Buenos Aires — School of Engineering

Computer Engineer

March 2018 – July 2024

Buenos Aires, Argentina

ORT Technical High School

Technical Bachelor, Construction

March 2011 – December 2017

Buenos Aires, Argentina
